

## MARVO MAGMA M40 (KG964)

### Keyboard Software Configuration via Web-Based Platform (No Installation Required)

For advanced customization of your keyboard, please visit our web-based configuration platform - no driver installation is needed.

1. Open your browser and go to: <https://scorpion.driveall.cn/#/>

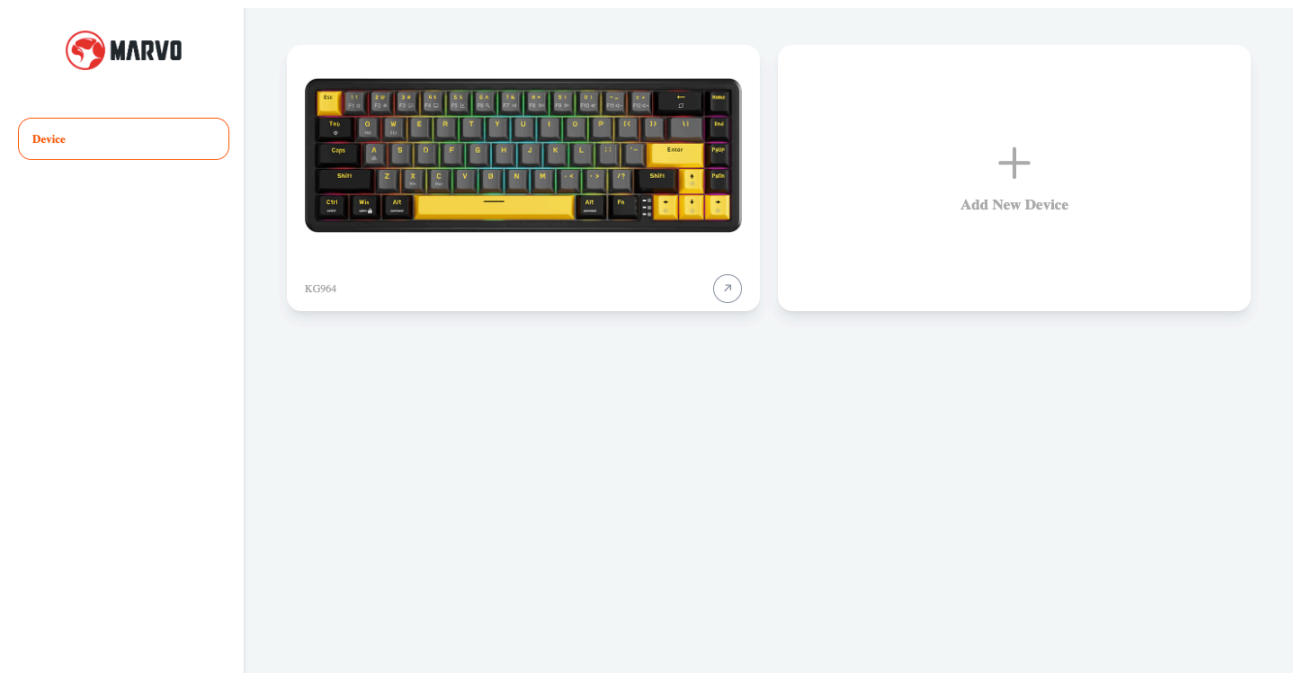

2. Connect your keyboard in wired mode and select it on the screen of our software - an image of the keyboard with the product number (KG964) should appear. **NOTE:** If it does not appear, click **Add New Device** and select KG964 from the list.
3. Customize lighting effects, key functions, macros, and more - all directly from the website.
4. Changes will be saved directly to your keyboard's onboard memory.

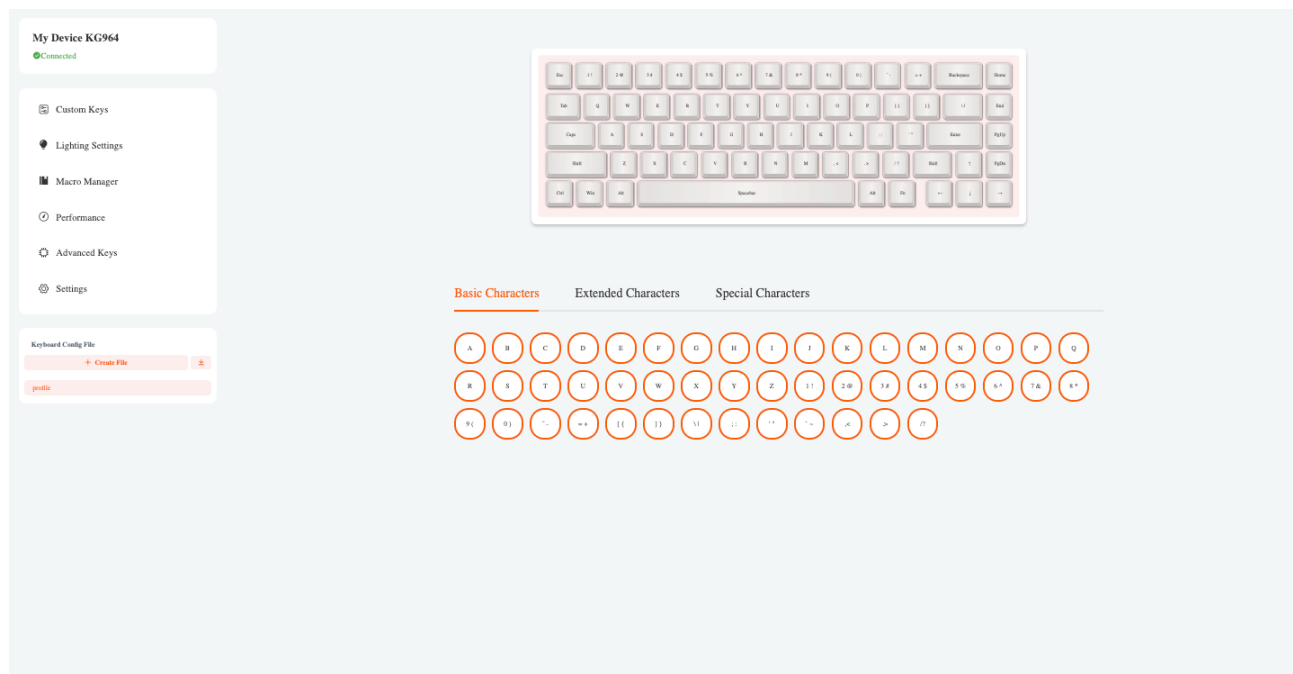

#### Note:

- The web configurator currently supports Windows systems only and requires a stable Internet connection.
- No software installation is necessary.
